50 rising startups in Singapore

Which startups are on the path to becoming the next big thing? One way to tell would be to check when they've raised a new round. Using *Tech in Asia* data, we've generated a list of startups in Singapore that have recently raised funding.

The constantly updated list only covers companies up to the series E stage. Each entry includes key details about the funding round.

Seeking more? Search the [most comprehensive database](#) of tech companies in Asia or read our [research methodology](#). For more auto-generated lists of rising startups, [head here](#).

We hope you enjoyed our premium content. If you'd like to unlock access to this article so non-subscribers can also read it, reach out to us at subscription@techinasia.com.
