50 rising startups in Southeast Asia

Which are the startups that are on the path to becoming the next big thing? One way to tell would be when they've raised a new round, though funding isn't the full story. Using Tech in Asia's data, we've generated this constantly updated list of startups in Southeast Asia who've recently raised funding.

The list only includes companies up to the series E stage.

Seeking more? Search the [most comprehensive database](#) of tech companies in Asia or read our [Research methodology](#). For more auto-generated lists of rising startups, [head here](#).
